**Narratives****Summary of Distribution and Uses of NSP Funds:**

A total of seven applications were received from jurisdictions containing eligible areas, totaling approximately \$13.6 million in requested NSP3 funds. As stated earlier, the State has \$4.75 million available to award. These applications were reviewed and evaluated by DED staff, and four applications have been selected for funding.

City of Independence: LMMH - \$712,500 for Acquisition/Rehabilitation, LH25 - \$712,500 for Acquisition/Rehab, \$75,000 for local administration

City of Raytown: LMMH - \$700,000 Acquisition/Rehabilitation, \$180,000 Redevelopment, \$10,000 Demolition, LH25- \$ \$245,000 Acquisition/Rehabilitation, \$45,000 Redevelopment, \$10,000 Demolition, Local ADMIN - \$60,000

St. Louis County: LMMH - \$655,000 Acquisition/Rehabilitation, \$45,000 Financing; LH25-\$125,000 Acquisition/Rehabilitation, \$125,000 Financing; Local ADMIN - 50,000

City of St. Louis: LMMH - \$712,500 Acquisition/Rehabilitation, LH25 - \$237,500, Local ADMIN - \$50,000

**How Fund Use Addresses Market Conditions:**

Raytown: The neighborhoods selected have a 36% high cost mortgage and 10% delinquency in foreclosure rate. A total of 53 foreclosure starts have occurred in this past year and there are 30 REO in the past year. Our project will be able to improve approximately 27 properties that are in foreclosure.

Independence: Current vacancies and increased foreclosures within the target areas can largely be attributed to the significant number of substandard rental properties and low property values that have characterized these neighborhoods since the 1960's. The NSP 3 program will strengthen housing market conditions by responding to an immediate need for decent, safe and sanitary; and affordable and efficient rental housing in an established and currently underutilized residential neighborhood. Further, NSP assisted units will be coupled with a lease-purchase program and supportive services in order to build a customer base for market-recovery homeownership opportunities.

St. Louis City: Market conditions in St. Louis are weak, but the city believes that affordable, energy-efficient, fully rehabilitated homes in residential neighborhoods can jump start the market and can help stabilize resale values for other residents.

St. Louis County: Priority 1

The County as a first priority will utilize its allocation of NSP 3 funds from the State to rehabilitate the proposed properties prior to financing the acquisition of any additional properties. The targeted areas for NSP 3 include within their boundaries, 13 of the homes previously acquired under NSP 1. These combined areas have a Total NSP 3 needs score of 16.28, the State of Missouri's minimum score being 13. Priority 2 The final priority for NSP 3 funds in St. Louis County is to continue to acquire, rehabilitate and redevelop foreclosed properties within these targeted areas. However, no funding for new acquisitions will occur unless program income is derived from the sale of the properties in Priority 1. If funding becomes available through the generation of program income, and the County uses these funds to acquire additional foreclosed units, the County will follow applicable acquisition and relocation regulations under the Uniform Relocation Act as well as Environmental Review Records, as required following the applicable rules.

**Ensuring Continued Affordability:**

Long-Term Affordability Affordability period for rental housing - rehabilitation or acquisition of existing housing per unit amount of NSP funds: - under \$15,000 ---- 5 years

- \$15,000 to \$40,000 ---- 10 years
  - Over \$40,000 or rehabilitation involving financing ---- 15 years
  - New construction or acquisition of newly constructed housing ---- 20 years
- Homeownership Affordability Period - Minimum period of Homeownership assistance NSP amount per-unit affordability
- Under \$15,000 ---- 5 years
  - \$15,000 to \$40,000 ---- 10 years
  - Over \$40,000 ---- 15 years

### **Definition of Blighted Structure:**

A structure is blighted when it exhibits objectively determinable signs of deterioration sufficient to constitute a threat to health, safety, and public welfare. Communities participating in the State's NSP funding must determine blighted structures by declaring the use of an existing dangerous building ordinance, building code level of violation or applicable occupancy or habitability designation and applying such ordinance, code violation, or designation in a manner consistent with the definition. The ordinance, code violation or designation must be applied to the specific structure, not to the area as a whole. The predominance of blight in an area does not allow blight to be assumed for each structure inside the area.

A structure is blighted when it exhibits objectively determinable signs of deterioration sufficient to constitute a threat to health, safety, and public welfare. Communities participating in the State's NSP funding must determine blighted structures by declaring the use of an existing dangerous building ordinance, building code level of violation or applicable occupancy or habitability designation and applying such ordinance, code violation, or designation in a manner consistent with the definition. The ordinance, code violation or designation must be applied to the specific structure, not to the area as a whole. The predominance of blight in an area does not allow blight to be assumed for each structure inside the area.

### **Definition of Affordable Rents:**

Defined as 30% of income.

### **Housing Rehabilitation/New Construction Standards:**

#### **Housing Rehabilitation Standards**

At a minimum, NSP grantees must use the Department of Economic Development Housing Quality Standards (DED HQS). These are available at <http://www.missouridevelopment.org/pdfs/MinimumHousingRehabilitationStandards.pdf>. If a NSP grantee chooses to use local rehabilitation standards, it must ensure that the local standard is more stringent than the DED HQS.

All gut rehabilitation or new construction (i.e., general replacement of the interior of a building that may or may not include changes to structural elements such as flooring systems, columns or load bearing interior or exterior walls) of residential buildings up to three stories must be designed to meet the standard for Energy Star Qualified New Homes.

All gut rehabilitation or new construction of mid -or high-rise multifamily housing must be designed to meet American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) Standard 90.1-2004, Appendix G plus 20 percent (which is the Energy Star standard for multifamily buildings piloted by the Environmental Protection Agency and the Department of Energy).

Other rehabilitation must meet these standards to the extent applicable to the rehabilitation work undertaken, e.g., replace older obsolete products and appliances (such as windows, doors, lighting, hot water heaters, furnaces, boilers, air conditioning units, refrigerators, clothes washers and dishwashers) with Energy Star-46 labeled products.

Water efficient toilets, showers, and faucets, such as those with the WaterSense label, must be installed.

Where relevant, the housing should be improved to mitigate the impact of disasters (e.g., earthquake, hurricane, flooding, fires).

HUD also encourages the adoption of energy efficient and environmentally-friendly green elements as part of NSP3 program design.

Attachment C to the NSP3 Notice describes in more detail how energy efficient and environmentally-friendly green elements can be incorporated and additional tools on incorporating green rehabilitation standards can be found on the NSP Resource Exchange at [www.hud.gov/nspta](http://www.hud.gov/nspta).

### **Vicinity Hiring:**

Vicinity Hiring will be addressed locally within each grant. A summary of the steps taken to ensure vicinity hiring are detailed by grantee, taken from each individual application, below.

**Independence:** In accordance with the City of Independence's planned NSP3 Section 3 program, developers who hire new employees will be required, to the maximum extent possible, to hire workers who live in the vicinity of the NSP3 target areas, and to contract with small businesses that are either owned or operated by persons residing in the vicinity of the project. A provision will be inserted in all development agreements and contracts incorporating this requirement; and compliance will be monitored NSP3 by program staff.

**Raytown:** The city will widely market all contracting opportunities to small businesses in the community.

**St. Louis County:** St. Louis County shall to the maximum extent possible, provide for the hiring of employees who reside in the vicinity of NSP3 projects or contract with small businesses that are owned and operated by persons residing in the vicinity of the project, as evidenced by County Ordinance. In addition, any developer, subrecipient or contractor entering into an agreement to receive funds through the County's allocation of NSP 3 funds shall as a participant in the program, agree to the maximum extent possible, provide for the hiring of employees who reside in the vicinity of NSP3 projects or contract with small businesses that are owned and operated by persons residing in the vicinity of the project.

**City of St. Louis:** To the maximum extent possible, the City will utilize Section 3 guidelines to hire people/businesses from the local vicinity to carry out any aspect of this activity should the need arise for additional employees or contractors.

## Procedures for Preferences for Affordable Rental Dev.:

The State prioritized affordable rental development with NSP3 funding, but left it up to the subgrantees to determine the need for affordable rental housing in the priority targeted NSP3 eligible areas. Not all of the areas determined to be high-need for NSP3 had a corresponding high need of more affordable rental housing.

Independence: Utilizing a formal Request for Proposals process, all NSP3 assistance within the target areas will be prioritized for projects that specifically focus on acquisition and rehabilitation of foreclosed properties for affordable LMMI and LH25 rental, and/or lease purchase activities.

St. Louis County: Preference for the development of rental housing can be demonstrated by the County's NSP rental policy allowing for the following: Developers/Property Management providers keeping properties affordable and maintaining the properties to the standards set for St. Louis County NSP and County or municipal building codes will receive partial forgiveness of debt at the end of the affordability period. Upon completion of the rehabilitation, a new appraisal of the property is conducted. At the time of completion of the rehabilitation of the property, the Developer/Property Management Provider will enter into a Note and Deed of Trust in the amount of the appraised value, allowing for return of annual program income after all operating expenses, including reserves have been paid. At the maturity of the note, typically 15 years, if the property has continued to remain affordable and met the County and municipal property codes and NSP standards during the period of affordability, 50% of the Note is forgiven. During the period of affordability, these loans may be assumable by other Property Management Providers that enter into agreements with The County to continue providing affordable rental opportunities until the end of the affordability period.

St. Louis City: The City has a very low percentage of homeowners, and the sites targeted for NSP-3 rehabilitation funding are largely single-family homes. We believe that the best use of the funds in the City is to increase affordable home ownership both as a direct benefit to the owner occupants and as a neighborhood stabilization strategy. We commit to the expenditure of a minimum of 25% of NSP program funding for rehabilitation of units restricted to households at 50% or below of area median income, and we anticipate that these will be rental units.

## Progress Toward National Objective Targets

National Objective	Target	Actual
NSP Only - LH - 25% Set-Aside	\$1,250,000.00	\$2,058,111.62

## Overall Progress Narrative:

Remaining NSP3 activities include the acquisition-rehabilitation-resale of scattered-site vacant properties in areas of greatest need. The City's scattered site program is being carried out primarily under developer agreements with Builders Development Corporation (BDC) and 12 Blocks West, both of which are nonprofit housing developers.

To date, six single family properties have been purchased for rehabilitation/redevelopment and resale. Two demolitions of single family structures determined infeasible for rehab was accomplished to allow for reconstruction and resale. Those two properties on Overton Ave. are underway with 12 Blocks West and have achieved approximately 50% completion. In addition 12 Blocks West completed lead abatement activities on a single-family rehabilitation project in conjunction with the Overton Ave. redevelopment. During the second quarter, BDC sold two substantial historic rehab single-family projects to middle income homebuyers. Construction progress on a third substantial historic rehab in the Harry S Truman NHL District reached approximately 50% completion. BDC sold two substantial single family rehabilitations (423 N. Pleasant & 718 S. Park) to NSP eligible households at or below 120% AMI.

Raytown: We currently own 1 property, purchased this quarter as a 50% rehabilitation property. We have completed and sold 16 houses. Construction is underway on the remaining 1 property, which is needed to reach 25% of funds spent on units for persons under 50%. We have sold twelve properties, housing unit, single family unit to persons under 120% and four properties, housing unit, single family unit to persons under 50%. It is our intention to close the project as soon as the final property is completed.

St. Louis City: The two units at 3224-26 Michigan are completely rehabilitated. The unit at 3224 Michigan sold on January 29, 2014 for \$110,000. The second unit at 3226 Michigan sold on April 17, 2014 for \$117,000. The North Sarah Phase II Project consisting of 7 units using NSP funds is now 100% complete. The project is fully rented as of October of 2014 and the direct benefit information was reported on this previous quarterly report.

St. Louis County: Three properties have sold, three have been rented on the 120% activity and three have been leased on the 50% activity.

### Activity Description:

All activities funded by the Independence NSP3 program will focus on acquisition and rehabilitation of foreclosed, abandoned and vacant properties, for rental/lease-purchase for the benefit of low and very low income households. The priority target area for Independence NSP3 activities is located in Census Block Group 112.4, and for the purposes of this application will be referred to as the Union and Cottage Redevelopment Area. According to the 2000 census data, area housing is 66% rental. The median household income of the area is \$34,609 with 94% of households being at or below 120% AML and 62.7% at or below 80%.
